Borrower	Chari Tapia			File No.	269-03093
Property Address	187 Hockhockson Rd				
City	Colts Neck	County	Monmouth	State NJ	Zip Code 07722
Lender/Client	Churchill Real Estate				

APPRAISAL AND REPORT IDENTIFICATION

This Report is one of the following types:

☒ Appraisal Report (A written report prepared under Standards Rule 2-2(a) , pursuant to the Scope of Work, as disclosed elsewhere in this report.)

☐ Restricted Appraisal Report (A written report prepared under Standards Rule 2-2(b) , pursuant to the Scope of Work, as disclosed elsewhere in this report, restricted to the stated intended use only by the specified client and any other named intended user(s).)

Comments on Standards Rule 2-3

I certify that, to the best of my knowledge and belief:
- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

Reasonable Exposure Time

(USPAP defines Exposure Time as the estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.)

My Opinion of Reasonable Exposure Time for the subject property at the market value stated in this report is: 0-3 months

A reasonable exposure time for the subject property developed independently from the stated marketing time is 0-90 days.

Comments on Appraisal and Report Identification

Note any USPAP-related issues requiring disclosure and any state mandated requirements:

The appraiser, Mark Staniaszek, has performed any appraisal services on the subject property prior to this report within the past 3 years.

Analysis of prior sale or transfer history of the subject property and comparable sales The subject has no prior sale for the three years prior to the effective date of this appraisal. Comparables 1, 2 and 3 have no prior sale for the three years prior to the date of sale of the comparable sale.

Summary of Sales Comparison Approach Extensive research was made in the market place for sales similar in style, size, location and characteristic to the subject property. The sales selected by the appraiser were chosen for their similarity to the subject. Where necessary, appropriate adjustments have been made to the comparable sales. It is the appraisers opinion that the sales used are the best available. Together, the comparables cited describe the range of values for the subject property and support the various adjustments made.

Indicated Value by Sales Comparison Approach $ 1,550,000

RECONCILIATION

Indicated Value by: Sales Comparison Approach $ 1,550,000 **Cost Approach (if developed) $** **Income Approach (if developed) $**

The sales comparison approach is the most reliable indicator of the value of a residential property when ample data are available. The income approach and cost approach were not necessary for a credible value opinion and were not developed.

This appraisal is made ☒ "as is", ☐ subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, ☐ subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or ☐ subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair:

Based on a complete visual inspection of the interior and exterior areas of the subject property, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is $ 1,550,000 **, as of** 10/02/2026 **, which is the date of inspection and the effective date of this appraisal.**

ADDITIONAL COMMENTS

See attached addendum.

ANSI Statement:

Finished Square Footage was calculated in accordance with Page 3 of the ANSI Z765-2021 Standard.

Appraisal fee was: $495.00. FASTAPP INC is the AMC. NJ-AMC #42AC00012300.

COST APPROACH

COST APPROACH TO VALUE (not required by Fannie Mae)

Provide adequate information for the lender/client to replicate the below cost figures and calculations.

Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value) LAND SALES

INCOME

INCOME APPROACH TO VALUE (not required by Fannie Mae)

Estimated Monthly Market Rent $ X Gross Rent Multiplier = $ Indicated Value by Income Approach

Summary of Income Approach (including support for market rent and GRM) Due to a lack of sufficient rental data and most purchases being for the purpose of owner occupancy, the Income Approach is not considered applicable.

PUD INFORMATION

PROJECT INFORMATION FOR PUDs (if applicable)

Is the developer/builder in control of the Homeowners' Association (HOA)? ☐ Yes ☐ No Unit type(s) ☐ Detached ☐ Attached

Provide the following information for PUDs ONLY if the developer/builder is in control of the HOA and the subject property is an attached dwelling unit.

Legal Name of Project

Total number of phases Total number of units Total number of units sold

Total number of units rented Total number of units for sale Data source(s)

Was the project created by the conversion of existing building(s) into a PUD? ☐ Yes ☐ No If Yes, date of conversion.

Does the project contain any multi-dwelling units? ☐ Yes ☐ No Data Source

Are the units, common elements, and recreation facilities complete? ☐ Yes ☐ No If No, describe the status of completion.

Are the common elements leased to or by the Homeowners' Association? ☐ Yes ☐ No If Yes, describe the rental terms and options.

Describe common elements and recreational facilities.

Form 1004UAD - "TOTAL" appraisal software by a la mode, inc. - 1-800-ALAMODE

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.

3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

11. I have knowledge and experience in appraising this type of property in this market area.

12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

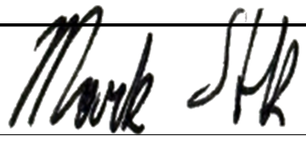

2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.

4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

ANALYSIS / COMMENTS

Analysis/Comments: See attached addendum.

Market Conditions Addendum to the Appraisal Report

CF147937

File No. 269-03093

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.

Property Address 187 Hockhockson Rd City Colts Neck State NJ ZIP Code 07722

Borrower Chari Tapia

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

MARKET RESEARCH & ANALYSIS

Inventory Analysis	Prior 7–12 Months	Prior 4–6 Months	Current – 3 Months	Overall Trend
Total # of Comparable Sales (Settled)	4	3	4	☐ Increasing ☒ Stable ☐ Declining
Absorption Rate (Total Sales/Months)	0.67	1.00	1.33	☐ Increasing ☒ Stable ☐ Declining
Total # of Comparable Active Listings	0	3	2	☐ Declining ☒ Stable ☐ Increasing
Months of Housing Supply (Total Listings/Ab.Rate)	0	3.0	1.5	☐ Declining ☒ Stable ☐ Increasing
Median Sale & List Price, DOM, Sale/List %	Prior 7–12 Months	Prior 4–6 Months	Current – 3 Months	Overall Trend
Median Comparable Sale Price	170,000	1,600,000	1,650,000	☐ Increasing ☒ Stable ☐ Declining
Median Comparable Sales Days on Market	70	30	45	☐ Declining ☒ Stable ☐ Increasing
Median Comparable List Price	0	1,620,000	1,625,000	☐ Increasing ☒ Stable ☐ Declining
Median Comparable Listings Days on Market	0	45	40	☐ Declining ☒ Stable ☐ Increasing
Median Sale Price as % of List Price	0	99.00%	100.00%	☐ Increasing ☒ Stable ☐ Declining
Seller-(developer, builder, etc.)paid financial assistance prevalent? ☒ Yes ☐ No				☐ Declining ☒ Stable ☐ Increasing

Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.). Seller concessions are typical for homes in the general market area. These concessions have remained stable over the past absorption period./ While seller concessions do occur, they are not the norm. Based on MLS data, seller concessions in the area are not trending higher. Seller concessions are part of the negotiation process.

Are foreclosure sales (REO sales) a factor in the market? ☐ Yes ☒ No If yes, explain (including the trends in listings and sales of foreclosed properties).

Based on the available market data; REO sales are not a factor as of the effective date of this appraisal.

Cite data sources for above information. The above analysis is based on the data obtained from MLS within the subject neighborhood boundaries.

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

The overall trend for market conditions based on this analysis have remained stable over the past 12 months. The appraiser has included the most recent listings activity available. The days on market analysis considers the most recent MLS listings and may not reflect prior listing history.

CONDO/CO-OP PROJECTS

If the subject is a unit in a condominium or cooperative project , complete the following: **Project Name:**

Subject Project Data	Prior 7–12 Months	Prior 4–6 Months	Current – 3 Months	Overall Trend
Total # of Comparable Sales (Settled)				☐ Increasing ☐ Stable ☐ Declining
Absorption Rate (Total Sales/Months)				☐ Increasing ☐ Stable ☐ Declining
Total # of Active Comparable Listings				☐ Declining ☐ Stable ☐ Increasing
Months of Unit Supply (Total Listings/Ab.Rate)				☐ Declining ☐ Stable ☐ Increasing

Are foreclosure sales (REO sales) a factor in the project? ☐ Yes ☐ No If yes, indicate the number of REO listings and explain the trends in listings and sales of foreclosed properties.

Summarize the above trends and address the impact on the subject unit and project.

Lender/Client	Churchill Real Estate						

RESIDENTIAL APPRAISAL ADDENDUM

To comply with 2025 - 2026 USPAP Standards 2-2A, this appraisal is officially an "Appraisal Report" as defined by this standard.

Scope of work: At the request of the client, this appraisal report has been prepared in compliance with the Uniform Appraisal Dataset (UAD) from Fannie Mae and Freddie Mac. The UAD requires the appraiser to use standardized responses that include specific formats, definitions, abbreviations, and acronyms.
The appraiser attempted to obtain an adequate amount of information in the normal course of business regarding the subject and comparable properties. Some of the standardized responses required by the UAD, especially those in which the appraiser has not had the opportunity to verify personally or measure, could mistakenly imply greater precision and reliability in the data that is factually correct or typical in the normal course of business. Examples include condition and quality ratings as well as comparable sales and listing data. Not every element of the subject property was viewable and comparable property data was generally obtained through third party sources (public records, MLS). Consequently, this information should be considered an "estimate" unless otherwise noted by the appraiser.

Contract Analysis: The appraiser was provided with a 15 page contract for review. The contract appears typical for the market **(if typical)**. There are no points or concessions reported. There is an agreed upon purchase price of $1,550,000 with an acceptance date of 06/01/2026.

Comments on Subject: The subject is a two story, colonial style single family residence, with brick exterior finish,shingle roof, 2-car garage on crawlspace/basement foundation. The site size is 3.8 ac, level lot and appears adequately drained. The subject's exterior improvements includes a screen porch, patio, and driveway. All utilities were on at the time of the inspection and appear to be in proper working order.

Plat Map: A plat map search was attempted on this property but was not available during the normal course of business.

Neighborhood Description: The subject neighborhood is located in a neighborhood with all commercial and support services in close proximity to the subject property. Access to the neighborhood is by Highway 18 & 34. There are no adverse factors which affect the neighborhood in general or the subject property in particular. Schools, shopping, and all other recreational support facilities can be found within the general market area. The residences within this market area vary between bungalows, ranch/modern style homes, one/two story homes, and large custom built homes on larger tracts of land.

There is a wide range of housing in the area. Due to the wide range of housing in the area, whether a property's value falls 15% above or below the predominant price does not negatively affect marketability. The variations in the predominant price are due to a multitude of features, such as age, lot size, gross living area, condition, etc. which, for the subject property, are identified throughout the appraisal report.

The price and age data reflects MLS data over the past year within the neighborhood boundaries. There are extremes which are not accounted for in that data.

Neighborhood Market Conditions: Mortgage interest rates are typically in the 6.27% to 7.25% range with loan discounts, interest buydowns, and concessions being offered at the present time. Seller concessions are generally part of the negotiation process. See the attached 1004MC for additional market data.

The market value stated in this report reflects a marketing time under 3 months.
The market value stated in this report reflects an exposure time under 3 months.

Comments on other Land Use: 25% Other land uses are vacant land which consists of state property, City/Town Property, residential developable & undevelopable land, parking lots, land for non-residential use property, industrial developable land, etc.

Highest and Best Use - Zoned: The subject is zoned as agricultural District. Legal improvement uses are limited to agricultural use and permitted complementary uses. The value of the subject as improved exceeds the value as vacant. The subject is located in a neighborhood characterized by residential properties, and a change in land use is not likely in the near future. Therefore, the highest and best use of the subject is its present single-family residential use.

Flood designation status is from an independent source and should be confirmed by the lender from their source.

The subject could be rebuilt (100% of the original footprint of the dwelling) as is in the event of a fire or other similar catastrophe, according to Local Inspectional Services Department.

Adverse Site Conditions: Any adverse easements, encroachments, legal description and lot dimensions should be verified by a current Plat of Survey and Title Policy. Any minor variations in lot dimensions should not effect value.

The FEMA flood information for the subject property was acquired from (Reference) in the MOMLS database or provided by Total by a la mode. This information is deemed accurate and reliable for the purpose of this appraisal. The appraiser accepts no responsibility for any errors or omissions that are caused by the previously mentioned FEMA data provider.

Physical Deficiencies or Conditions : There are no known apparent adverse environmental conditions that would negatively impact on the value of the property. However, this should be verified by a qualified environmental engineer.

No mold was identified at the time of the inspection however the appraiser is not qualified to determine the cause of mold, the type of mold or whether the mold might pose any risk to the property or its inhabitants. The appraiser is not a home or environmental inspector. The appraiser

Borrower	Chari Tapia						
Property Address	187 Hockhockson Rd						
City	Colts Neck	County	Monmouth	State	NJ	Zip Code	07722
Lender/Client	Churchill Real Estate						

provides an opinion of value.

The appraiser does not guarantee that the property is free of defects or environmental problems. The appraiser performs an inspection of visible and accessible areas only. Mold, Asbestos and Radon may be present in areas the appraiser cannot see. A professional home inspection or environmental inspection is recommended.

This appraisal is not a home inspection and the appraiser is not acting as a home inspector when preparing this report. When performing the inspection of this property, the appraiser visually observed areas that were readily accessible. The appraiser is not required to disturb or move anything that obstructs access or visibility. The inspection is not technically exhaustive. The inspection does not offer warranties or guarantees of any kind.

Comments on Sales Comparison

Sales Selection: Extensive research was conducted to develop a competitive market analysis by obtaining the most recent, proximate, and comparable listings, pending sales, and closed sales. Not all data analyzed was included in this report, but is available in the work file. The sales selected by the appraiser were chosen based on the most similar location, design style, quality of construction, condition, size, additional features, and overall marketability relative to the subject property. Where necessary, appropriate adjustments have been made to the comparable sales relative to the subject to equalize or bracket its characteristics. The data used for comparison was considered to be the most recent, proximate, and equivalent to the subject; and after market adjustments, supports the estimated value.

Comments on Adjustments:

Market Condition: There was a lack of data to support any adjustment for market conditions over the time period shown by the comparable sales, therefore no adjustments were warranted.

Site: Site adjustments were made at $50,000 per acre for differences greater then 1 acre. The appraiser took into account each site's size location, topography and utility when estimating its value. Buyers in this market have not illustrated market provable preferences or resistance to reasonable site size variances as long as the site is of adequate size to provide the utility necessary to support the improvements in a manner deemed appropriate for this market area.

Actual age: The comparables used varied with age as compared to the subject property. No adjustments were made for actual age as comparables used are sufficiently similar in effective age. The differences in actual age receives little market recognition and adjustments are made in the condition line to account for age and interior condition of the property at the time of sale.

Room count – Bath: Full bath adjusted at $5,052 each and half bath adjusted at $10,402 each, matched pair analysis was used to determine bathroom adjustment.

Room count – Bedroom: Properties of this type are generally purchased for overall GLA and utility rather than room count/bedroom utility, therefore, no bedroom adjustments considered warranted.

Gross living area: Variations in total living area above grade are made at the rate of $102 per square foot when differences of comparable and subject exceeds 100 sf. Market sensitivity analysis revealed that no GLA adjustment is warranted for the difference of less than 100 sf. Adjustments have been made where necessary for differences in square footage over this amount.

Below grade area: The subject and comparables include below-grade square footage, which per Fannie Mae guidelines should be considered separately from above-grade square footage. The unfinished/finished square footage of the subject is of lesser quality than the above-grade square footage. Therefore, the appraiser assigned a lesser contributory value to the below-grade area, which is reflected in the adjustment for below-grade area. Basement area is adjusted at $39 (finished basement) and $21 (unfinished basement) per square foot.

Miscellaneous: Adjustments for various physical characteristics are based on typical market reaction and/or appraiser judgment and do not necessarily reflect costs.

Reconciliation of the sales comparison approach: In the reconciliation of the market approach, the weighted median (RD) of the adjusted sales price was calculated to provide a central tendency measure less affected by outliers, to ensure that the indicated value reflects what a typical buyer would pay for a comparable substitute property.

Digital pictures: The digital pictures provided with this appraisal were not altered from their condition as of the date of inspection. The digital pictures included in the appraisal accurately reflect each of the identified properties as viewed by the appraiser. *One or several original comparable photos could not be taken for the following reasons: People or children were out in the front yard or someone approached me asking me not to take a photo. Please reference MLS photo.*

Water heater(s), CO, and Smoke detector(s): Smoke detectors and co monitors appear to be in compliant. Strapped water heater(s) are not required to be installed/inspected for properties in New Jersey; therefore, the appraiser had not verified them during the inspection.

AIR compliant statement: No employee, director, officer, or agent of the lender, or any other third party acting as a joint venture partner, independent contractor, appraisal management company, or partner on behalf of the lender has influenced or attempted to influence the development, reporting, result, or review of this assignment through coercion, extortion, collusion, compensation, instruction, inducement, intimidation, bribery or in any other manner. I have not been contacted by anyone other than the intended user (lender/client as identified on the first page of the report), borrower, or designated contact to make an appointment to enter the property. I agree to immediately report any unauthorized contacts either personally by phone or electronically to the client Fastapp, Inc. Appraisal Management.

Adjustments Calculations

Solomon Adjustment Calculator - Report

Criteria		Adjustments	
Zip Code	07722	GLA	102
Quality Level	4	Basement Size	21
Remaining Economic Life	50	Basement Finish	39
		Full Bath	10402
		Half Bath	5052
		Fireplace	3248
Factor (see user manual)		First Garage Stall	16849
		Additional Garage Stall	10466
		First Carport Stall	3973
		Additional Carport Stall	2649

The market based adjustment is calculated by dividing Remaining Economic Life by Economic Life. With an accurate value for REL, we know the 'cents on the dollar' that the market is paying for the building. This ratio is then applied to the marginal cost of GLA.

National Building Cost reports GLA costs as Average Total Cost. Solomon has calculated Marginal Cost by charting Total Cost at appropriate quantities, and applying single variable regression to solve for Marginal Cost. In the Y = aX + B equation, Marginal Cost is the 'a' variable. Finally, Solomon factors in the variables that affect local building costs such as labor, material and equipment. Because REL / EL reveals the percentage of cost new that the market is paying, the result of the Solomon calculation infers how the market is reacting to changes in GLA, Basement Size, Basement Finish, Full Bath, Half Bath, Garage and Fireplace

Purpose

The purpose of this appraisal is to determine as-is market value.

Scope

The appraiser certifies and agrees that this appraisal was prepared in accordance with the requirements of Title XI of the Financial Institutions, Reform, Recovery, and Enforcement Act (FIRREA) of 1989, as amended (12 U.S.C. 3331 et seq.), and any applicable implementing regulations in effect at the time the appraiser signs the appraisal certification.

Intended Use / Intended User

The intended use of this appraisal is to assist the client Churchill Real Estate with determining market value.

History of Property

Current listing information: As per MOMLS#22613653 the subject property was listed in market on 05/14/2026 for $1,375,000 and currently listed for the same price.

Prior sale: The subject has no prior sales for the three years prior to the effective date of this appraisal.

Exposure Time / Marketing Time

The market value stated within this report reflects a marketing time of under 3 months. The market value stated within this report reflects an exposure time of 0-90 days.

Personal (non-realty) Transfers

Personal (non-realty) property was not included in the market value.

Additional Comments

N/A

Certification Supplement

1. This appraisal assignment was not based on a requested minimum valuation, a specific valuation, or an approval of a loan.
2. My compensation is not contingent upon the reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result or the occurrence of a subsequent event.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered “new” if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner’s site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:
3.2 indicates three full baths and two half baths.
